Abstract – Decentralization and regional in autonomy policies confer authority in more widely to local administration there demanded variously changes in the government management system. One of the changes is on the own local system and mechanism for planning the development nationally and regional lead into decentralization. The main points in the case of development planning are about the quality of working. The planning process in quality is going to generate a qualified planning, such points be run on the Gayo Lues Administration. The objective of this study is to analyze the influence of agenda setting, policy formulation and budgeting on the quality of working plan in implementing the development for Gayo Lues region.

The research adopted a multiple linear regression analysis or Path analysis with quantitative method. Data as obtained by this research known as primary data, which data was collected after distributing them questionnaire, whereas secondary data obtained from some authorities.

The result of the research shows that the agenda setting, policy formulation and budgeting factors affect the quality of Gayo Lues Regency Government Work Plan either simultaneously or partially and the agenda setting, policy formulation, budgeting and quality of Gayo Lues Regency Government Work Plan also have a significant effect on development Region but partially formation policy has no direct influence on the development of Gayo Lues region.

Keywords – Government Working Plan; Agenda Setting; Policy Formulation; Budgeting and Regional Development.

I. INTRODUCTION

Welfare is the goal of every individual and communities. Every country in the world aspires to welfare for individuals and society communities. Indonesia is a country that is granting autonomy to the regions with the status of province, district/city and village dedicated to accelerating the realization of the society welfare. To achieve the objectives of the country, every region must to prepare Long Term Development Plan (RPJP) which is valid for 20 years, RPJP is explained into the Medium Term Development Plan (RPJM) as a guide to the development of 5 year period,

RPJM explained into the Government Work Plan (RKP) as a reference for the construction for a year.

The most important part of the RKP is the role of planning itself. planning according by Sirojuzilam and Mahalli (2010) is an intervention in a series of societal social events with a view to improving existing intentions and activities with the mean: (a) improving efficiency and rationality; (b) enhancing institutional and professional roles and (c) or the sharing of options for a higher level of welfare for the whole society.

The process of preparing RKPD to discuss strategic issues, priority programs, budgetary strategies and community participation. Some resources and coordination in performance-based planning and budgeting (1) the structure of the Local Government Work department (SKPD) has not provided sufficient space for integrated planning and budgeting (2) the budget team is not fully involved at each planning stage (3) , understanding and motivation of the employees to apply the budget optimally (4) limited local budget (Utari, 2009).

Based on the above background, the formulation of this research problem is to know the agenda setting, policy formulation and budgeting factors influence quality of Gayo Lues Regency Government Work Plan (RKP), agenda setting, policy formulation, budgeting and quality of Gayo Lues Regency Government Work Plan (RKP) factors influence development Region and agenda setting, policy formulation and budgeting factors by quality of Gayo Lues Regency Government Work Plan (RKP) factor influence development Region of Gayo Lues Regency.

II. THE OBJECTIVE

To analyze the influence of agenda setting, policy formulation and budgeting factors to the quality of Gayo Lues Regency Government Work Plan (RKP), to analyze agenda setting, policy formulation, budgeting and quality of Gayo Lues Regency Government Work Plan (RKP) factors to the development Region and to analyze agenda setting, policy formulation and budgeting factors by quality of Gayo Lues Regency Government Work Plan (RKP) factor to the development Region of Gayo Lues Regency.

III. BENEFIT

The results of this research is expected to benefit to provide input for the government of Gayo Lues regency, especially in the process of the work plan government, for the system and its implementation in the future to be better, Encouraging the discovery of a form of development planning context of regional autonomy that is expected to be a good practice and support the development of the region and can be used as input and reference for further research relating to the planning and development region.

IV. METHOD OF RESEARCH

This research is done on the whole SKPK in the Government of Gayo Lues regency and bordered on officials associated with the preparation of a work plan of SKPK. The kind of research is associative causal research, the sample population total are the head departments of it and the head of which is handled for the preparation of the

work plan SKPK each one for a total are as many as 76 people.

The kind and sources of data is used in this research are primary data and secondary data are there in all department work of regency (SKPK) Gayo Lues regency and other data that can support in the preparation of this research. The instrument for this research is a questionnaire which is based on indicators of each variable. Method analysis data in this research is using multiple linear regression model approach and residual test.

V. PROFILE OF GAYO LUES REGENCY

The regency of Gayo Lues with Blangkejeren as capital is geographically located between 03°40'26"-04°16'55" north latitude and 96°43'24"-97°55'24" east longitude. The average height is 400-3000 meters above sea level, with 5549,92 Km² area with the following borders :

- The north is bordered by Aceh Tengah regency;
- The south is bordered by Aceh Tenggara regency;
- The west is Bordered by Aceh Barat Daya regency;
- The east is bordered by Aceh Timur regency.

Gayo Lues Regency consists of 11 districts, 144 Mukims and 144 villages.

VI. CONCLUSION

Based on the results of data analysis to all data obtained, it can be concluded as follows:

1. Agenda setting (X_1), policy formulation (X_2) and budgeting (X_3) has positive influence on quality of Government Work Plan (Y) Gayo Lues Regency;
2. Agenda setting (X_1), policy formulation (X_2) budgeting (X_3) and quality of Government Work Plan (Y) has positive influence on the development Region (Z) of Gayo Lues Regency;
3. Agenda setting (X_1), policy formulation (X_2) and budgeting (X_3) by quality of Government Work Plan (Y) has positive influence on the development Region (Z) of Gayo Lues Regency.

VII. SUGGESTION

Based on the conclusion, the researcher comes with three the suggestions:

1. To avoid differences in perception of questions in the research instrument given to the respondents it is necessary to advance the initial explanation on the purpose and objective questions;
2. For the Regent of Gayo Lues, to improve the quality of the work plan of the government in the development of

Gayo Lues regency can be done by improving the preparation of the agenda setting, policy formulation and budgeting factors that will have implications for the development of the Gayo Lues regency;

3. For the further research is advisable to include other variables that have an influence on the quality of the work plan of the government and regional development.
